PREFATORY NOTE

The READERS' GUIDE TO PERIODICAL LITERATURE is a cumulative author subject index to periodicals of general interest published in the United States.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advises the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years. The Committee as part of its study prepares a list of periodicals, representative of all subject areas included in the Index, for consideration by the subscribers.

Selection of periodicals for indexing is accomplished by subscriber vote. In voting their preferences subscribers are asked to place primary emphasis on the reference value of the periodicals under consideration. They are also asked to give particular consideration to subject balance in order to insure that no important field be overlooked in proportion to overall index coverage.

Suggestions for additions or deletions of titles should be brought to the attention of the Committee in care of The H. W. Wilson Company.

SUGGESTIONS FOR THE USE OF THE READERS' GUIDE TO PERIODICAL LITERATURE

Arrangement

Authors and subjects are arranged in one alphabet. Under authors and subjects, titles are arranged also in alphabetical order by the first word, initial articles being disregarded. Under personal names titles *by* author precede those *about* him. Subdivisions of a subject are arranged alphabetically under the subject. Geographical subheads follow the other subdivisions in a separate alphabet.

Cross References

See references are made from various forms of personal names and subject headings to the most generally accepted forms appearing in the first issue, after made, and thereafter in but one quarterly issue, until the annual volume. They are also made from titles of dramas, operas, and stories to names of authors and composers.

See also references are made from a subject to related subjects under which additional material may be found.

Dramas

Dramas are indexed under the dramatist's name with a *see* reference from the title of the drama; titles are also listed under the heading—Dramas—Criticisms, plots, etc.—Single works.

Fiction

Novels and short stories are indexed under the author's name with a *see* reference from the title to the author. Subject entries are made for selected types of fiction, e.g. Historical fiction; Christmas stories; etc.

Moving Pictures

Moving picture plays are indexed only under the headings Moving picture plays—Criticisms, plots, etc.—Single works, or Moving pictures—Documentary films—Criticisms, plots, etc. No title references are made.

Musical comedies, revues, etc.

Musical comedies, revues, etc. are indexed under the heading Musical comedies, revues, etc.—Criticisms, plots, etc. with a *see* reference from the title of the work.

Operas, Operettas

Operas, Operettas are indexed under the composer's name with a *see* reference from the title of the opera or operetta; titles are also listed under the headings Operas—Criticisms, plots, etc., or Operettas—Criticisms, plots, etc.

For those unfamiliar with form of reference used in the entries, the following explanation is given.

Sample entry: ADULT education
Mother goes back to school. B. Farber. il Parents Mag 49:46-7+ Ja '74

An illustrated article on the subject ADULT education entitled "Mother goes back to school," by B. Farber, will be found in volume 49 of Parents' Magazine, pages 46-7 (continued on later, or preceding pages of the same issue) the January 1974 number

RG 3/74-2/75
